## RIEDSTADT A PLACE FOR IDEAS AND PLANS

Riedstadt, the Büchner city, with its districts Crumstadt, Erfelden, Goddelau, Leeheim, and Wolfskehlen, wields a very good transport connection with its two suburban railway (S-Bahn) connections to the Frankfurt-Mannheim railway line. Along with a spacious recreational landscape like the Europa-Reservat Kühkopf-Knoblochsaue, which is known all around Germany, four attractive industrial parks are located here including the modern commercial park RIED, which offers the potential for expansion for companies wanting to expand.

„We already chose Riedstadt to be our location in 1991. Even in hindsight, the infrastructure, such as the Autobahn connection and the proximity to the airport, confirms that that was the right decision. For this reason, we've decided on a business expansion at the location.“
